 - Commission Meeting was held on March 2nd, but not a lot of topics of interest for our group. All meetings, agendas, and minutes are available on the POST website.
 - UOF 1070 was not discussed, so, no changes in regulations.
 - Updated language for webinar/distance learning previously in regulation 1052(e) now in 1053. For some courses we may need to update the language in the ECOs for webinars, but that will most likely come up when the course comes up for in biannual modifications. So, nothing you will have to do unless I contact you or your course is put into modification in EDI.
 - The Quality Assessment Program (QAP) was granted additional funds to continue through the FY, so some of you may get request by QAP people to sit in on your courses for an evaluation

If you have any questions or concerns, please reach out. I get hundreds of emails and I try to respond within a day or two, but if I don't respond within a couple days, please call or text me or send me another email, just in case the initial message got buried or deleted inadvertently.

- Roundtable – Use of Force/De-Escalation: No 1070 instructor requirement at this time – most agencies are using DT Instructors to teach the course.
